

ADDITIONAL TELEGRAPH.

CITY OF MEXICO, 4th AVENUE, April 7.
Gen. Roca, commander of the 24th div. of Mexico, is in full retreat to join Progreso. The States of San Luis Potosi, Guanajuato, Zacatecas and Durango are again in possession of the Government. The revolutionary cause is considered hopeless. Terrible anarchy exists throughout the country.

Mr. Brooks' resolution in the U. S. Congress, for a protectorate over Mexico created no sensation. The Journal published them without harsh comments, and some of them even without editorial comments.

The flag of the 19th ult., says: The subject is a grave one.

The *Yos De Mexico* says: The present anarchy was the cause of the introduction of the two republics. It also says that Brooks does not understand the Mexican people. The general opinion is, however, that Brooks does understand that foreigners and the most responsible natives desire a protectorate or annexation.

The wife of the United States Minister, Nelson, died suddenly of heart disease on the 23d ult., in a railroad car, while on a pleasure trip to Matamoros. Her body was embalmed and deposited in a church, to remain till her husband takes it to the United States for interment, for which purpose he has applied for leave of absence. Her daughter, aged 16 years, was in company with Mrs. Nelson at the time of her death, and Mr. Nelson himself was expected to join the party.

General Taylor, who commanded the Government troops at the battle of Fresnel, received several wounds, from which he died at Zacatecas.

The revolutionary Colonel Lagunas was captured by Mapena, at Durango, after a severe fight.

The birthday of President Juarez, on the 21st ult., was celebrated by the loyalists throughout the republic.

A railroad train in Puebla has been robbed of thousands of dollars near Otzala.

The preparatory session of Congress began on the 25th ult., when Valdez Juarez was elected President. Congress intends to defeat all schemes for railroad proposed from the Rio Grande river. The United States would be built just enough to fill Northern Mexico with Americans, and then the Texas game would be played, Congress will try to create a Senate, and make its President successor of Juarez, in case of death or resignation to prevent Lord from occupying the Presidency.

The Lower California difficulty has been settled by the government conceding the privilege of gathering orchards.

A shock of earthquake was felt in the Capital and several States, lasting thirty seconds, on the 26th ult.

Voluntary subscriptions of French residents in Mexico toward the payment of the French indemnity now amounts to \$41,000.

Rocha announced the flight of the revolutionists toward Sonora, and the occupation of Mazatlan by government troops.

Anti-Grant Republican Movements in New York.
New York, April 6.—The call is to be followed by a mass meeting of the Liberal Republicans, at Cooper Institute next Friday, at which it is understood Senators Schurz and Trumbull will speak. Senator Sumner's friends think that in a few days he will publicly commit himself to the Cincinnati movement.

The *World* thinks one essential which the Liberals need is boldness. The *World* also says that while the New York response to the call for a Liberal Convention was hardly influenced by the Connecticut election, yet that election was not unprofitable to the Democracy. It asserts that there is hope that the Cincinnati Convention may shape the future policies of the country.

A Case of Suspected Murder.
RUE, Pa., April 7.—A woman named Grace Plucker, about forty years of age, was found dead in bed in a little shanty near the land light house to-day. Her face was black from apparent strangulation and there were marks like finger prints on her throat. The only other occupant of the shanty was her husband, a little son. The husband has been taken into custody to await the coroner's inquest.

Opening of Lake Navigation.
DETROIT, April 7.—A tug succeeded in getting through Lake St. Clair yesterday, passing through six miles of ice. Heavy rain has been prevailing since yesterday, which will undoubtedly help the ice. Therefore, navigation can now be considered open from Port Huron to Lake Huron. The ice on Saginaw bay and Lake Huron is still solid.

The Nashville Exposition.
NASHVILLE, April 6.—The Exposition building will be finished by the 15th inst. Forty-six railroads, and all the lines of steamboats running to Nashville, have agreed to bring freight and passengers for half fare.

River News.
PITTSBURGH, April 7.—It rained steadily during the afternoon. The Monongahela is about six feet, and swelling slowly. The Putnam left for Cincinnati. She has been sold to enter the Parkersburg trade.

LOUISVILLE, April 7.—River rising, with seven feet three inches in the canal; five feet three inches in the chute. It rained, but all night, and a clear day with a light breeze. Mercury 68 to 70 degrees.

EVANSVILLE, April 7.—More rain last night; clear and hot to-day. Mercury 70 degrees. The river has risen seven inches.

CAIRO, April 7.—River fallen one inch. Clear and pleasant. Thermometer 76 degrees.

ST. LOUIS, April 7.—River falling. Weather clear and warm.

HAVE you seen the New Style Photographs at the Partridge Gallery.

If you wish to select your Spring Wall Paper from a large and cheap assortment of all grades, you will do well to call at Paul & Orr's before going elsewhere, and you will be sure to find what you want. Remember the place, Paul & Orr, No. 90 Market street.

"JOHNIE TAIL SOAP" cured cracked hands, Salt-rheum, pimples, and all cutaneous diseases, rendering the skin soft and smooth. Manufactured by CASWELL, HAZARD & CO., 59-61 N. 3rd Street, New York.

STORE ROBBERY.—The grocery store of Henry Loeber in the 8th Ward was the scene of a daring robbery on Saturday evening. About 9 o'clock a young lady made a small purchase and Mrs. Loeber went to make the change, when she found that the shelf had been robbed of every cent. Turning to a box that they kept on the shelf which contained about twenty dollars, she found that cleaned out also. Upon further examination it was found that the thief or thieves had also taken about 200 stogies and tips and a half box of tobacco. Mr. Loeber had been absent all the evening, and Mrs. Loeber was attending store, she says about fifteen minutes before she missed the money a man came in and asked for apples; she hid none and told him so, when he replied that he had been in four or five neighboring stores and could find none. This was not true, as they all had apples. She went into the back room, leaving the doors open, and heard no noise, but in fifteen minutes the money was gone. As there is a bell on the front door she can not confessure how they got in without her hearing them. The thief or thieves got about \$60 in money and some \$100 worth of tobacco and cigars.

Another.—The store of Mrs. C. Hook, on Denny Street, was broken into Saturday night or Sunday morning, and a small amount of money, besides 300 stogies, 100 tips and a lot of cocoanuts, oranges, candy &c., taken. The thief gained an entrance by inserting some sharp instrument between the shutters on a side window and lifting the hook. Yesterday morning, when Miss Hook entered the store, she found everything turned topsy turvey, drawers pulled out, papers thrown over the floor, and everything to show that money was the object of search.

A World's Fair Coming.—On Thursday the 18th day of April Adam Forepangh's Four Great Shows under four separate Tents will make their entire into this city. The procession will take place at 10 o'clock in the morning, and will unquestionably be one of the most beautiful sights ever witnessed. The Grand Musical Car of the Muses—due of the most gorgeous specimens of chariot work ever seen, and containing Prof. Frank's celebrated Silver Cornet Band—leads a long line of splendid daisies, vans, cages and chariots, herds of elephants, camels, dromedaries, etc. Silver spangles, banners, flags and uniforms decorate the whole line, and make the scene one of gorgeous grandeur and beauty. Four separate tents are used to exhibit the many wonders contained in these Shows; and persons who have long objected to visiting Circuses, can now examine the animals, birds, curiosities, and other objects of interest, without coming in contact with, or hearing a single word in the tent devoted to arctic amusements. But a single price of admission is charged to all the Shows, and our people will turn out en masse to witness the greatest exhibition the world has ever seen.

ATTEMPTED SUICIDE.—Yesterday morning about eight o'clock a man giving his name as James Peters called at the police court room saying that the people were trying to kill him. He said a crowd got after him on Saturday night, and he had to run upon the hill and stay all night. From his wild talk he was evidently insane, but as it was thought he would do no harm he was left to go at large, so about ten o'clock he left. In about an hour Mr. Frank Taylor brought him back saying, he had found him on the river bank, under the suspension bridge. From Peter's story, and others, it seems that he filled his pockets with stones, and walked out into the river for the purpose of drowning himself, but when he got pretty well out he suddenly came to the conclusion that life was too sweet to throw away so he started for shore, but only got out after considerable difficulty, and says, if he had had one more stone he never could have got out. Squire Johnson and Dr. Hildreth were called, and after examining the man he was sent to jail, where he will have a regular examination this morning at ten o'clock.

AN IMPRISON.—Many of our readers have no doubt noticed within the last two weeks a man who has lost a leg and now goes on crutches, sitting in the Post-office lobby, or standing on the streets with outstretched hand asking alms. He is, heavy, trying to get money enough to pay his fare home to Pittsburgh, but in reality he wants the money for drink. A kind hearted lady on Fourth Street gave him nearly enough the other day to pay his fare, but instead of leaving town he went off and had a regular spree. He sleeps in the police court room at night, and usually gets money enough through the day to get a loaf of bread and a chunk of "pudding," and whiskey enough to get drunk on. Look out for him, for all you give him is worse than thrown away.

DEATH OF A SON OF PHIL DODDING.—A notice, in another column, announces the demise yesterday evening of Mr. B. Z. B. Doddington, son of the renowned Parfir Doddington, of Virginia, and brother of Major J. M. Doddington, late Pension Agent of this city. Mr. Doddington was an invalid for many years, and for the last seven or eight years a member of Major Doddington's family. He was a man of superior natural talent, and possessed fine cultivation. Even up to the last week of his life he had not forgotten his student habit and remarkable love for books. He was never married. His remains will be taken to Wellsburg Tuesday morning for interment, where rest the ashes of his father and other friends.

BITTEN BY A DOG.—Harry Lanet, a little boy about six years of age, whose parents live on Denny street, Eighth Ward, was badly bitten by a dog on Saturday last. The dog belongs to his parents, and was never known to be dangerous, as the little boy often plays with him. At the time it happened none of the rest of the family were present, but it is thought that he was merely playing with the brute. The little fellow was very badly bitten on the cheek and lip.

DECIDEDLY REASONABLE.—The weather

DEPOSITORS SECURED BY THE CITY BANK.
